

Solar & Screen

SPECTRA 33 C

Solar Control Transparent - Interior - Multi Alloy

Description

Spectra 33 C multi alloy films are carefully designed to act selectively on the spectrum of solar light, offering the best possible compromise between transparency and performance.

Visible Light Transmission (%)

Visible Light Reflection - External (%)

UV Rejection (%)

||| 3 mm simple glazing - without film

Film applied to 3 mm simple glazing

SPECTRA 33 C

Solar Control Transparent - Interior - Multi Alloy

Characteristics

Warranty 10 years

Fire Resistance Rating

Storage in recommended conditions
3 years

REACH / RoHS

Widths Available 122 cm, 152 cm

Installation Type

Interior

Color From the Outside

Light Champagne

Length 30.5 m

Product Carbon Footprint (LCA)

1.04 kgCO2e/m²

Construction

- Scratch-resistant hard coating providing surface protection, durability, and ease of cleaning
- 2 High optical quality polyester, with an IR-blocking metallic particle coating
- 3 Bonding adhesive
- 4 High optical quality polyester
- 5 PS adhesive, polymerizes with glass within 15 days
- 6 Protection PET release liner, disposable after installation

Composition

Thickness 55 µm

Details

Energy and environmental benefits⁰¹

Energy savings 16.3 kWh/m²/year

Carbon footprint reduction

5.2 kgCO2/m²

Financial savings

4 euros/m²/year

Installation and Maintenance Advise

Use Slide On (600-FO2) or Film On (600-F0355) diluted at 2 cL/L of water for installation and cleaning. Do not clean for one month after installation or apply stickers/adhesives on the film. It is essential to apply our sealing varnish (ref. 0771) to the edges of the film after installation to prevent oxidation of the metal alloys.

- O1 Values based on a study carried out on an air-conditioned building located in Luxembourg, with a film applied on a low-E double glazing, facing East. The heating months considered are from October to March, and the cooling months from April to September. We consider an electric heating system of the heat pump type, with a production efficiency of 3.5 and an electric cooling system with an efficiency of 3. For more information, visit our online tool.
- 02 Advice based on glazed surface area up to 2.5 m², please contact us for any confirmation or thermal shock analysis.
 - The data in this information sheet is not contractual, SOLAR SCREEN reserves the right to modify the composition of its products at any time. Please refer to our warranties and general sales conditions.
