Solar  Screen

VISTA 90 XC

Solar Control

One Way Mirror - Exterior

Description

Vista 90 XC films are highly effective at reducing solar heat gain, whilst at the same time continuing to allow some natural light transmission. This film provides effective protection against solar glare, whilst its one-way mirror aspect further guarantees privacy from prying eyes. Its modern design immediately lends a contemporary feel to any building exterior.

Visible Light Transmission (%)

Visible Light Reflection - External (%)

UV Rejection (%)

Characteristics

-  **Warranty**
3 years
-  **Fire Resistance Rating**
M1
-  **Storage in recommended conditions**
3 years
-  **REACH / RoHS**
Compliant
-  **Widths Available**
152 cm
-  **Installation Type**
Exterior
-  **Color From the Outside**
Silver
-  **Length**
30.5 m
-  **Product Carbon Footprint (LCA)**
1.18 kgCO₂e/m²

Construction

- Scratch-resistant hard coating providing surface protection, durability, and ease of cleaning
- High optical quality polyester, with an IR-blocking metallic particle coating
- Bonding adhesive
- High optical quality dyed polyester
- PS adhesive, polymerizes with glass within 15 days
- Protection PET release liner, disposable after installation

-  **Composition**
PET
-  **Thickness**
60 µm

Details

Energy and environmental benefits⁰¹

-  **Energy savings**
116.4 kWh/m²/year
-  **Carbon footprint reduction**
36.8 kgCO₂/m²
-  **Financial savings**
27 euros/m²/year

- Reflective Tinted Double Pane ✓
- Gas-Filled Double Pane - Low E ✓
- Stadip Ext. Clear Double Pane ✓
- Stadip Int. Clear Double Pane ✓

✓ Yes ✗ Not recommended ! Caution

Installation and Maintenance Advise

Use Slide On (600-FO2) or Film On (600-F0355) diluted at 2 cL/L of water for installation and cleaning. Do not clean for one month after installation or apply stickers/adhesives on the film.

Access the installation and maintenance advice video

⁰¹ Values based on a study carried out on an air-conditioned building located in Luxembourg, with a film applied on a low-E double glazing, facing East. The heating months considered are from October to March, and the cooling months from April to September. We consider an electric heating system of the heat pump type, with a production efficiency of 3.5 and an electric cooling system with an efficiency of 3. For more information, visit our online tool.

⁰² Advice based on glazed surface area up to 2.5 m², please contact us for any confirmation or thermal shock analysis. The data in this information sheet is not contractual, SOLAR SCREEN reserves the right to modify the composition of its products at any time. Please refer to our warranties and general sales conditions.
